# FRONTIERS IN BIOMATERIAL SCIENCE

3. International Symposium  
of the Transregio 67

Dear colleagues,

We cordially invite you to the third international symposium "Frontiers in Biomaterial Science" organized by our collaborative research center Transregio 67.

The symposium will provide an update on topics like

- › **Innovative Biomaterials**
- › **Wound Healing and Repair**
- › **Highlights of Transregio 67**
- › **Bone Inflammation and Regeneration**
- › **Special Topic: Interleukin-17**

We are very happy to announce the participation of internationally acclaimed keynote speakers who will cover these topics. In addition, we will present the most interesting projects from our collaborative research center.

We are very grateful to the German Research Foundation, Technische Universität Dresden and Leipzig University for their support of our symposium.

This is an online event with live streaming. Please find detailed information on the website [www.trr67.de](http://www.trr67.de).

We are looking forward to seeing you.

**Jan C. Simon**  
Speaker of Transregio 67  
Leipzig

**Carsten Werner**  
Co-Speaker of Transregio 67  
Dresden

**ONLINE  
REGISTRATION**
